

# PTCB EDUCATOR PROGRAM

PTCB is making life easier for pharmacy technician educators.

As a pharmacy technician educator committed to advancing medication safety through quality pharmacy technician certification, you'll want to participate in PTCB's free Educator Program. Program benefits include:

- Being first to receive PTCB news and information
- Automatic eligibility for Sponsorship, a simple process to cover students' certification fees
- Bulk discounts on the Official PTCB Practice Exams
- Free bulk verifications of students' certifications
- Performance reports on your students' overall test results
- Welcome kit
- Recognition on PTCB's website, in newsletters, and on social media

"The ease and efficiency of the PTCB Sponsorship portal, allowing the college to pay for the PTCB Certification exams of our students, is a wonderful feature of the PTCB Educator Program. Sponsorship allows us to reinforce the importance of national PTCB Certification to our newly-graduating students by making it convenient for them to register for the exam."

Sally Pestana, University of Hawaii, Kapi'olani Community College

## Who is eligible to join?

All pharmacy technician educators committed to quality certification are invited to join for free. More than 1,300 educators already participate, and this number continues to grow. These educators represent a range of educational institutions, including community colleges, universities, high schools, technical schools, employer training programs, and career centers. By choosing PTCB, you support quality certification and are assured your PTCB-Certified students are credentialed by the nation's leading certifying body.

## Become a Sponsor

Sponsorship is a simple way for educators to pay for candidates to test. Educators who become Sponsors save time and money.

- No advance payments
- No need to reimburse technicians
- No cumbersome paperwork
- No fees are charged if a candidate chooses not to test after applying
