

Who cares if your pharmacy technicians are certified? Your patients.

Listen to your patients. Choose PTCB Certification.

A 2016 survey* of the public found:

94% say trust in their pharmacy
would increase with standardized
certification for technicians.

85% believe it's very important
for pharmacy technicians
to be certified.

76% say they would change
pharmacies if technicians
were not certified.

What makes PTCB Certification stand out? Excellence.

- Portable and accepted in all 50 states, DC, Guam, and Puerto Rico
- Pharmacy profession-endorsed
- Assures employers of a standard of competency
- Allows pharmacies to expand care services
- Only non-profit certification program
- NCCA-accredited since 2006
- More than 585,000 certifications granted
